

Dear Hiring Manager,

I am thrilled to apply for the Director of Data Products role at Novolex, and I am confident that my unique blend of technical expertise and business acumen makes me an ideal candidate for this position. With a strong background in data engineering, product management, and analytics, I am excited about the opportunity to leverage my skills and experience to drive innovation and growth at Novolex.

As I researched Novolex, I was impressed by the company's commitment to sustainability and its mission to provide innovative packaging solutions that meet the evolving needs of consumers. I am particularly drawn to Novolex's vision for a circular economy, which aligns with my own values and goals as a data leader. I am excited about the opportunity to join an organization that prioritizes environmental responsibility and social impact.

As a seasoned product manager and data engineer, I bring a unique combination of skills and expertise to the table. With technical proficiency in **Databricks**, **SAP**, and a deep understanding of how to establish actionable **KPIs/OKRs**. Leveraging technology to drive business outcomes. My experience in data architecture and analytics has given me a strong foundation for developing data-driven products that meet customer needs. Moreover, my vision for innovative solutions and my ability to bring people together to achieve a common goal make me an effective leader and collaborator.

I am excited about the opportunity to join the Novolex team and contribute my skills and experience to drive innovation and growth. I would welcome the chance to discuss this role further and explore how my qualifications align with the company's needs.

I've reviewed our compatibility based on job posting, company research and my experience with my proprietary model and these are my findings:

Match Score: **85%** - Application for Novolex - Director of Data Products

Methodology: Weighted scoring: Technical Skills (40%), Technologies/Tools (30%), Experience Level (15%), Soft Skills (10%), Other Factors (5%).

Sincerely,
