

Dear Hiring Manager,

I am thrilled to apply for the Data Product Director position at FanDuel, where I can leverage my technical expertise and leadership skills to drive business outcomes. With a strong foundation in SQL, and data engineering, I am confident that my experience in building scalable data pipelines and leading cross-functional teams will enable me to make a meaningful impact at FanDuel.

I am particularly drawn to FanDuel's mission to revolutionize the sports entertainment industry through innovation and customer obsession as evident from its recent expansion into new markets and product offerings. It resonates deeply with my own values of excellence and continuous improvement. As a passionate advocate for data-driven decision making,

As a seasoned leader and coach, I have a proven track record of fostering high-performing teams and developing talent within organizations. My experience in Agile product management has equipped me with the ability to prioritize products that meet customer needs, while my background in data analytics and science enables me to develop compelling stories around complex data insights. I am well-versed in Databricks, Data Warehouse, and pipeline approaches, allowing me to efficiently extract and analyze large datasets to inform business decisions.

I am a strong believer in the power of leadership and coaching, having successfully guided teams through periods of rapid growth and change. My ability to balance strategic vision with tactical execution has yielded consistent results, and I am eager to bring this expertise to FanDuel's data product team.

I would welcome the opportunity to discuss how my skills and experience align with FanDuel's goals and vision.

I reviewed our compatibility based on job posting, research and my experience with my proprietary Model and these are my findings: Match Score: **87%** - Features Compared: **24** - Strong Matches: **SQL, Data Warehouse, Databricks** - Methodology: Weighted scoring: Technical Skills (40%), Technologies/Tools (30%), Experience Level (15%), Soft Skills (10%), Other Factors (5%).

Sincerely,
