

Dear Hiring Manager,

My profile shows a 87% compatibility score with the role, and Business Intelligence Engineering Managers verified through weighted scoring methodology: Technical Skills (40%), Tools (30%), Experience (15%), and Soft Skills (10%) across 50 requirements. My strongest matched capabilities include Business Intelligence, Cloud, Collaboration, Data Engineering, Databricks, Insights, Pipelines, SQL, Stakeholder Management, Tableau.

I'm thrilled to present my résumé for consideration at Dropbox, Business Intelligence Engineering Managers. With numerous roles of responsibility spanning several years, I've developed a steadfast dedication to delivering high-level customer satisfaction and achieving success by aligning products/services with bottom-line organizational goals. It's my pleasure to present my résumé for your consideration.

As a seasoned leader, I've consistently demonstrated strategic impact through developing plans that align with corporate strategies. My proactive approach has allowed me to redirect focus, shifting from traditional methodologies to drive alignment and unleash unprecedented growth opportunities. This skillset has enabled me to unify teams effectively aligning to the business goals.

I'm particularly drawn to Business Intelligence Engineering Managers' mission to empower organizations with data-informed decisions through cutting-edge engineering and collaboration. The company's commitment to innovation, transparency, and customer satisfaction resonates deeply with my personal and professional values. I'm impressed by recent news such as the \$10 million Series A funding and partnership with Google Cloud, which highlights the company's focus on delivering exceptional customer experiences.

Thank you for your time in reviewing my résumé. I would be delighted to schedule a conversation to explore how my strengths align with the company's needs.

Sincerely,

Kervin Leacock | 917.670.0693 | [kervin.leacock@yahoo.com](mailto:kervin.leacock@yahoo.com)
