Dear Hiring Manager,

I reviewed our compatibility & these are my findings:
Score: 94% - Strong Matches: data management, analytics, automation, emerging technologies, data mesh, data lakes, lakehouses, BI tools. **Across 17 compared** individual skills, technologies, & requirements analyzed

Methodology: Weighted scoring: Technical Skills (40%), Technologies/Tools (30%), Experience Level (15%), Soft Skills (10%), Other Factors (5%)based on job posting, research and my experience with my model

With over 19 years of experience in data-driven decision making, I am confident that my technical skills will be an asset to your team. As a seasoned expert in large scale companies and startups. Where I have consistently delivered high-quality results while collaborating with cross-functional teams. My expertise in Data Architecture, and DevOps has enabled me to drive automation, optimize processes, and create actionable insights that inform strategic decisions.

As a leader, I thrive in environments where innovation meets execution. I believe my experience in leading data-driven initiatives will enable me to make an immediate impact at Porter Airlines.

I am thrilled to submit my application for the Director, Decision Intelligence and Emerging Technologies role at Porter Airlines, where I can leverage my blend of technical expertise and leadership acumen to drive innovation and growth.

I would welcome the opportunity to discuss how my technical expertise and leadership capabilities can contribute to Porter Airlines Inc.'s continued success.

Sincerely,
Kervin Leacock | 917.670.0693 | kervin.leacock@yahoo.com
Note: I am able to work in Canada and the United States
